

## PROFILE

I'm Kobe, someone who loves working with computers and programming. I am always excited to analyse issues and dive into technical rabbit holes.

If there's one thing I like more than computers, it's people! I like to work in a team with a diverse set of profiles, or in an interdisciplinary context. I enjoy organising knowledge-sharing sessions & coaching colleagues.

When I am not working, I like to spend my time on passive investing, reading sci-fi books, volunteer work, watching movies and cybersecurity.

## BIRTHDATE

11 januari 2000

## ADDRESS

Houthalen-Helchteren, Belgium

## WORK EXPERIENCE

### InfoFarm: Data Consultant 2021 – Present

- **Lineas Data Squad**

Lineas is the largest private rail freight operator in Europe. I develop and setup Kubernetes clusters, AWS data pools and NiFi data flows using Terraform and custom scripts, in order to provide a central data storage and management platform, while ensuring end-to-end functionality by corresponding with the BI-team.

- **ANPR Big Data Platform**

The ANPR Big Data Platform is a scalable and extensible platform for collecting, storing and aggregating ANPR data. My task within the project is to construct a big data lake using AWS and make the data usable for analysis, reporting and future processing.

### PXL Smart ICT: Research & Development Intern 2021

ArtiFiSHal Intelligence is a twofold project, primarily consisting of scenes made in Unity which illustrate several reinforcement learning techniques. Secondly, the project contains a simulation of a marine ecosystem which uses an open-ended algorithm, NEAT.

### Houthalen: Youth Council Member 2018 – Present

### Strandbal: Event Manager 2018 - Present

### Chiro Meulenberg: Youth Monitor 2017 - Present

## EDUCATION

### Courses & Certificates

- **2023:** Neo4J Certified Professional
- **2022:** AWS Certified Developer (Associate)
- **2021:** AWS Certified Cloud Practitioner

### Formal Education

- **2018 – 2021:** Hogeschool PXL  
Bachelor Applied Information Technology (AI & Robotics)
